RELEVANT PROJECTS

Disney Ride Tracker

· **Fall 2019.** Developed a **React** webapp companion for Disneyland parks. Designed UI and implemented multiple API calls. Uses Google Firebase and Google Cloud Services. Can be found in GitHub.

Brobdingnagian Integer

· **Spring 2018.** Designed an extensive **Java** class including methods to execute mathematical operators on extremely large numbers. Can be found in GitHub.

EXPERIENCE

IT Wizard | Spin's Auction Services | Fall 2015 - Present

· Electronically check people in to auctions and run services such as silent auction and live auction with tablets

JR Golf Instructor | Incline Village General Improvement District | Summer 2017 & Summer 2018

· Moderated 20+ children and set up multiple drills across the golf course. Had to adapt to any issues that arose with the children such as injuries or missing items

Busser | Azzara's Restaurant| Summer 2018

· Assisted servers and provided customer service to patrons. Duties included refilling glasses and clearing plates in a timely manner

Quality Assurance Tester | Bright and Associates | Summer 2019

· Tested the implementation of a new website. Ran through all possible paths of interaction and recorded possible errors or formatting issues.

LEADERSHIP / EXTRACURRICULAR

Ranking Minority Member in Simulation Congress | Fall 2019

· In a simulation of the House of Representatives, assumed the role of Rep. Mark Meadows. Was elected to be the minority leader and as such had to organize and manage 10 other members and create schedules for the class.

Practice Player for Women's Basketball | Fall 2017 – Spring 2019

· Attended daily practices and ran through drills with LMU Women's Basketball team. Had to adjust to new drills on the fly and be adaptable to different play styles.
